Miss Nettie Wilson returned Monday night from a week's visit to relatives in St. Louis.

High Hill, we understand, is to have, or already has a newspaper. We wish it success and hope it will be a successful paper.

Jonesburg is a fine little town but it needs a factory or some kind of industry to increase its laboring population. It is well known that the men employed in factories spend nearly all of their wages back into the town in which they are employed. We have an abundance of fine fire-clay, in a short distance from town which would provide ample facilties for a factory to manufacture sewer pipes and other fire clay products. Why can't we get such an industry and boom our town? Let's think about it.

In mentioning other locals we forgot to mention that winter arrived Sunday for an indefinate clothier's ad that there had been a

30 acres, three room house, barns, etc., 20 acres in cultivation. Snap at \$400.

R. H. BAILEY

FARM BROKER MONTGOMERY CITY, - - - - MO.

A young man of this city, says the Hutchison, Kan., News, purchased a pair of pants last Tuesday morning in one of the clothing stores. When the News came out that afternoon he read in the cut of 25 per cent. Then he took his pants back and told the storekeeper he did not like them, but just to keep the money and give him credit and he would buy something later on. He went around next day and got the same pair of pants for 25 per cent less and got the difference back in cash. That young man will be rich some day and he will make a good portion their heads over. The answers are of his money by reading advertisements.

A young lady entered a store in a near by town and said: "I want the way; deaf and dumb, but know a pair of circular elastic appendages capable of being contracted 2. People pray for me and long and expanded by means of exces that sparkle like particles of gold leaf set with Alaska diamonds in position the habilaments of the lower extremities which innate delicacy forbid me to mention." side, but never catch one another. The clerk just had time to hand 6. What walks up-side-down her a pair of gerters before collapsing.-Ex.

Distinctively Different In Every Way the Best

The weekly Globe-Democrat, of St. Louis, covers a field peculiarly and exclusively its own. It is issued twice every week, A big semi-weekly paper. Eight to ten large pages every Tuesday and Friday. One

Dollar a year.

Nothing particularly different, you say, about that—there are other "Twice-a-Week" papers.

Yes, but the similarity ends there. No other paper is like the Globe-Democrat in any other respect. No other paper equals the Globe-Democrat in any respect.

An entire unique feature of the Globe-Democrat, a feature which is highly prized by its readers, is its systematic method

of preserving and presenting the Continuity of News. The two papers each week, Tuesday and Friday, are carefully prepared with the view of giving the complete news of all the world for that week.

They are so combined in the make-up as to form continued and connected stories of the various important even showing developments from day to day and the final results. Other weekly and twice-a-week papers as a rule, print only a few telegrams of the day of issue The "Twice-a-week Globe-Democrat gives the telegrams

of every day in the week more comprehensively than the average Daily and of more value to the average reader. Moreover, the "Twice-a-Week" Globe-Democrat is not simply an echo of the daily edition.

It is a separate and distinct publication, especially pr pared to supply the requirements of people who want all the news of all the earth—and something more. It presents the World's daily history in concise but com-plete form. It is of equal interest in all parts of the United States. It is invaluable alike to men and women, young

It thoroughly provides for every member of the family. In high-grade literature it praticularly excells. Its market reports are correct and complete in every detail.

Its departments devoted to "The Home," "The Farm and Garden," "The Family Circle," "The Sunday School," "Science and Industry," are each and all The Best of their kind and either one is more than worth the subscription

price of the paper. In politics it is strictly republican, but it is above all a newspaper, and it tells the truth without fear or favor. It has no equal or rival as a great national news and home

Remember the price, only One Dollar per year—104 papers—less than one cent a copy. Postage prepaid.

You will make no mistake if you send \$1.00 To-Day a year's subscription. Or you can get your own paper of Year without cost by inducing two of your neighbors to sai scribe and sending their names with \$2.00. Free Sample copies, containing order blanks and particulars, will be cheerfully furnished upon receipt costal card request. Address Globe Printing Competitions of the containing competition of the containing competition of the containing containing competitions.
